

DECLARATION OF RESIDUAL SOLVENTS

Farmadria - Avena Lab, as a distributor of cosmetic raw materials for Serbia and the region, based on the documentation provided by the manufacturer, confirms that cold-pressed castor oil does not contain, nor is it processed with, any of the three solvents listed in the European Pharmacopoeia "Guideline for Residual Solvents (CPMP/ICH/283/95) (according to ICH guidelines Q3C) - Class 1, Class 2, Class 3." Hexane is a Class 2 solvent. We declare that the cold-pressed castor oil is of the highest purity and does not contain hexane.

The manufacturer does not routinely analyze this product or the raw materials for the presence of the listed solvents.

The manufacturer's statement is based on knowledge of the castor oil production process and the raw materials used in its production process.

IZJAVA O PREOSTALIM RASTVARAČIMA

Kompanija Farmadria - Avena Lab, kao distributer kozmetičkih sirovina za Srbiju i region, na osnovu dostavljene dokumentacije proizvođača potvrđuje da hladno presovano ricinusovo ulje ne sadrži, niti se prerađuje uz pomoć ni jednog od tri rastvarače iz klase navedenih u Evropskoj farmakopeji "Smernice za preostale rastvarače (CPMP/ICH/283/95) (prema ICH smernicama Q3C) - Klasa – 1, Klasa – 2, Klasa – 3. Heksan je rastvarač klase 2.

Izjavljujemo da je hladno presovano ricinusovo ulje najviše čistoće i da ne sadrži heksan.

Proizvođač rutinski ne analizira ovaj proizvod ili sirovine na prisustvo navedenih rastvarača.

Izjava proizvođača se zasniva na poznavanju procesa proizvodnje ricinusovog ulja i sirovina koje su korišćene u procesu proizvodnje
