

TECHNICAL DATA SHEET

Aphrodisiac - Essential Oil Blend

Product name: Aphrodisiac - Essential Oil Blend

Chemical classification: Mixture

Functional category: Fragrance

Manufacturer: MADAR Corporation Limited, UK

Country of origin: United Kingdom

Description: A carefully selected combination of essential plant oils that act as an aphrodisiac (stimulating sexual desires). The oil is composed of a blend of essential oils: Cedarwood (*Cedrus atlantica*), Lavender (*Lavandula officinalis*), Orange (*Citrus sinensis*), Patchouli (*Pogostemon cablin*), and Ylang Ylang (*Cananga odorata*). The oil contains active components: Benzyl benzoate, Benzyl salicylate, Cinnamaldehyde, Citral, Coumarin, Eugenol, Farnesol, Geraniol, Isoeugenol, Linalool, d-Limonene.

INCI name: Cedarwood (Cedrus Atlantica), Lavender (Lavandula Officinalis), Orange (Citrus Sinensis), Patchouli (Pogostemon Cablin) and Ylang Ylang (Cananga Odorata)

CAS number: 8023-85-6, 8000-28-0, 8008-57-9, 8014-09-3, 8006-81-3

Usage: Used as a fragrance component in the manufacture of various cosmetic products. Within aromatherapy, the oil can be inhaled. Always dilute before use.

Stability and storage: Store in a tightly closed container in a cool, dry place, protected from sunlight. If stored for longer than 24 months, quality should be checked prior to use.

TECHNICAL DATA SHEET

Precautions: Before the first use of any essential oil, a test should be performed to check for sensitivity to that specific essential oil. This preventive measure is recommended due to the possibility of individual hypersensitivity reactions. It is recommended to dilute 1 to 2 drops of essential oil in 5 ml of a carrier oil (olive or almond oil) and then apply this mixture to the inner side of the forearm. The oil must not be used internally and should be kept away from children and the eyes. Always check for any medical conditions that could cause adverse effects when applying the oil. Seek assistance if you have any doubts.
