

## TECHNICAL DATA SHEET

### Cannelle Orange Fragrance Oil

**Product Name:** Cannelle Orange Fragrance Oil

**Olfactory Classification:** Cannelle Orange Fragrance Oil belongs to the Citrus–Aromatic fragrance family, with a distinctly fresh, energetic, and slightly aquatic character. The composition combines multiple citrus notes with herbal and floral accords, supported by a light watery undertone that enhances cleanliness and long-lasting freshness.

**Fragrance Oil Description:** The composition is refreshing, vibrant, and light, with medium intensity and stable diffusion. The fragrance profile is citrusy, clean, and energizing, with a pronounced effect of freshly squeezed citrus fruits.

The opening is formed through a combination of orange, grapefruit, bergamot, and lemon. Orange and grapefruit provide juicy citrus richness with a subtle bitter nuance, while bergamot and lemon contribute sharp citrus brightness and energetic freshness. This combination creates an intense and uplifting first impression.

In the heart of the composition, an aromatic–floral accord develops, dominated by litsea cubeba, thyme, blackcurrant, and orange blossom. Litsea cubeba provides citrus-herbal freshness with a slightly exotic character, thyme contributes an aromatic herbal dimension, blackcurrant introduces subtle fruity depth, while orange blossom softens the composition with delicate floral sweetness. This combination forms a complex and harmonious heart.

The base structure is built around a watery floral accord with an additional grapefruit nuance. The aquatic floral accord provides light freshness and a sense of cleanliness, while grapefruit extends the citrus character and supports the overall longevity of freshness.

The dry-down is light, clean, and long-lasting, with a pronounced revitalizing effect. The dominant accords of this composition include citrus fresh, aromatic herbal, aquatic clean, and floral soft facets, which together create a modern and highly commercially attractive fragrance profile. Citrus and aromatic aspects remain dominant throughout the fragrance evolution, while the base contributes stability and extended longevity.

## TECHNICAL DATA SHEET

**Application:** Cannelle Orange Fragrance Oil is intended for use in fragrance formulations, including scented candles, wax applications, and other perfumery products. Individual testing is recommended in order to determine the optimal concentration depending on the type of base and the desired fragrance intensity.

For wax-based formulations, it is recommended to incorporate the fragrance during the appropriate liquid phase in order to achieve even dispersion. For maximum permitted concentrations, consultation of the IFRA certificate is required.

The fragrance demonstrates good stability and uniform diffusion, with a pronounced and long-lasting citrus-aromatic character.
