

TECHNICAL DATA SHEET

Cookie Chocolate Fragrance Oil

Product name:

Fragrance oil "Cookie Chocolate".

Olfactory classification:

Cookie Chocolate Fragrance Oil belongs to the gourmand–bakery fragrance family, featuring a sweet profile of baked cookie, milk chocolate, and vanilla notes. The composition blends cookie accords with creamy chocolate and warm milky facets, creating a dessert-like fragrance inspired by freshly baked chocolate cookies.

Fragrance description:

The fragrance is warm, creamy, and intensely gourmand, evoking freshly baked cookies with chocolate filling. It has medium-strong to strong intensity, excellent diffusion, and a long-lasting sweet trail. The opening features warm milk and light cocoa tones, providing a soft creamy introduction. The heart reveals cookie and milk chocolate accords, where the cookie adds a baked, slightly crispy texture while milk chocolate contributes smooth sweetness. The base consists of vanilla and condensed milk, enhancing warmth and leaving a soft, milky gourmand drydown. Key accords include cookie, milk chocolate, creamy vanilla, warm milk, and bakery notes.

Application:

Cookie Chocolate Fragrance Oil is used in candles, wax melts, diffusers, and other fragrance applications. Recommended usage levels are typically 7–10% for candles and 10–15% for wax melts, depending on the base and desired intensity. In wax systems, the fragrance should be added to the melted phase according to the wax manufacturer's instructions for optimal blending and stability. For maximum allowable usage, consult the IFRA certificate.
