

TECHNICAL DATA SHEET

Fabric Softener Fragrance Oil

Product name: Fabric Softener Fragrance Oil

Olfactory classification: Fabric Softener Fragrance Oil belongs to the clean floral, fruity musk, and laundry fresh fragrance family, characterized by a clean, fruity-floral, and soft profile. The composition combines fresh fruity notes, delicate floral accords, and a musky-woody base, creating a sophisticated scent inspired by luxury fabric softeners and freshly laundered textiles.

Fragrance oil description: The composition is clean, soft, and elegantly refreshing, with a pronounced effect of soft and freshly scented laundry. The fragrance has a medium intensity, very good diffusion, and a long-lasting clean trail.

The opening of the composition is based on a fruity accord, jasmine, and a fresh accord. The fruity accord provides juicy and vibrant freshness reminiscent of freshly picked fruit, while jasmine introduces rich floral elegance and subtle sensuality. The fresh accord contributes to the clean, airy, and lightweight character of the composition, creating the effect of freshly washed textiles.

At the heart of the fragrance, a blend of rose, peach, and apple develops. Rose provides classic floral fullness and sophistication, peach adds soft fruity sweetness and a velvety texture, while apple enhances the sensation of natural freshness and fruity vibrancy.

The base structure is built around dry wood, musk, and orange blossom. Dry wood stabilizes the composition with an elegant woody structure, musk delivers a soft and clean sensual trail, while orange blossom introduces gentle warmth and a sophisticated floral finish.

The dominant accords of this composition include clean laundry, fruity floral, soft musk, fresh textile, and elegant wood profiles. The fragrance leaves a clean, soft, and highly pleasant trail, with a pronounced effect of luxurious fabric softener and freshly washed laundry.

Application: Fabric Softener Fragrance Oil is intended for use in scented candles, wax melts, diffusers, laundry care formulations, and other fragranced applications.

TECHNICAL DATA SHEET

For laundry care formulations, the recommended concentration depends on the type of base and the desired fragrance intensity. For wax-based formulations, compliance with the wax manufacturer's guidelines is recommended to ensure optimal fragrance dispersion and stability.

For maximum permitted concentrations, please refer to the IFRA certificate. The fragrance demonstrates very good stability and a pronounced clean-laundry character.

Regulatory compliance: This fragrance oil is manufactured in accordance with European regulations (CLP EC No. 1907/2006 and 1223/2009/CEE) and French IFRA standards.
