

TECHNICAL DATA SHEET

Floral Elixir Fragrance Oil

Product name: Floral Elixir Fragrance Oil

Olfactory classification: Floral Elixir Fragrance Oil belongs to the clean floral, soft musky, and aquatic fresh fragrance family, characterized by a clean, floral, and elegantly powdery profile. The composition combines fresh fruity notes, delicate floral accords, and a warm musky-woody base, creating a sophisticated and modern fragrance inspired by purity, softness, and luxurious floral elegance.

Fragrance oil description: The composition is delicate, clean, and sophisticatedly floral, with a pronounced effect of freshness and softness. The fragrance has a medium intensity, very good diffusion, and a long-lasting elegant trail.

The opening of the composition is built around melon, an aldehydic accord, and peony. Melon introduces juicy and lightly sweet fruity freshness, while the aldehydic accord creates an effect of airy cleanliness and modern sophistication. Peony contributes delicate floral fullness and spring-like freshness, creating a light and elegant introduction.

In the heart of the fragrance, a blend of cotton, rose, and watery floral notes develops. The cotton accord creates a sensation of cleanliness and softness, rose provides classic floral elegance and a rich floral character, while the watery flower note enhances the feeling of transparent freshness and a light floral mist.

The base structure is composed of vanilla, musk, and sandalwood. Vanilla introduces creamy warmth and a subtle gourmand nuance, musk provides a soft and sensual trail, while sandalwood stabilizes the composition with warm woody facets and elegant depth.

The dominant accords of this composition include clean floral, soft musk, cotton fresh, watery flowers, and creamy sandalwood profiles. The fragrance leaves a clean, elegant, and highly pleasant trail, with a pronounced effect of luxurious floral freshness and soft textiles.

TECHNICAL DATA SHEET

Application: Floral Elixir Fragrance Oil is intended for use in scented candles, wax melts, diffusers, and other fragranced formulations. Recommended concentrations for scented candles generally range from 7–10%, while for wax melts concentrations of 10–15% are recommended, depending on the desired intensity and type of base.

For wax-based formulations, it is recommended to add the fragrance into the liquid wax base according to the wax manufacturer's guidelines in order to achieve optimal dispersion and fragrance stability.

For maximum permitted concentrations, please refer to the IFRA certificate. The fragrance demonstrates very good stability and a pronounced clean-floral character.

Regulatory compliance: This fragrance oil is manufactured in accordance with European regulations (CLP EC No. 1907/2006 and 1223/2009/CEE) and French IFRA standards.
