

TECHNICAL DATA SHEET

Frangipani Ornat Fragrance Oil

Product name: Frangipanier Ornat Fragrance Oil

Olfactory classification: Frangipanier Ornat Fragrance Oil belongs to the exotic floral, creamy tropical, and soft gourmand fragrance family, characterized by a floral, creamy, and exotically warm profile. The composition combines citrus notes, luxurious white florals, coconut, and a warm vanilla base, creating a sophisticated and luxurious fragrance inspired by tropical gardens and frangipani blossoms.

Fragrance oil description: The composition is rich, exotic, and creamy-floral, with a pronounced tropical character and elegant warmth. The fragrance has a medium to strong intensity, very good diffusion, and a long-lasting sensual trail.

The opening of the composition is built around bergamot, bitter almond, and shiu wood. Bergamot provides a fresh citrus sparkle and subtle bitterness, while bitter almond contributes a rich, slightly nutty, and sophisticated nuance. Shiu wood introduces a deep exotic woody note that gives the composition warmth and fullness.

In the heart of the fragrance, a luxurious blend of jasmine, wallflower, hawthorn, and coconut develops. Jasmine and wallflower bring intense floral fullness and elegant floral softness. Hawthorn adds a lightly fruity and gently woody nuance, while coconut introduces creamy tropical warmth and a rich sensual texture.

The base structure is composed of vanilla, ylang-ylang, and a fruity accord. Vanilla provides warm gourmand softness and creamy depth, ylang-ylang contributes exotic floral sensuality, while the fruity accord rounds out the composition with a juicy and warm finish inspired by ripe tropical fruits.

The dominant accords of this composition include tropical floral, creamy coconut, exotic white flowers, soft vanilla, and warm fruity profiles. The fragrance leaves a luxurious, creamy-floral, and exotically warm trail, with a pronounced effect of an elegant tropical perfume.

TECHNICAL DATA SHEET

Application: Frangipanier Ornat Fragrance Oil is intended for use in scented candles, wax melts, and other naturally inspired fragranced formulations. Thanks to the Ornat collection and accompanying documentation, the fragrance may be used in formulations intended for COSMOS Natural and COSMOS Organic concepts.

Recommended concentrations generally range between 5–7%, depending on the type of base and the desired fragrance intensity. For wax-based formulations, stabilization testing is recommended in order to achieve optimal performance and fragrance diffusion.

For maximum permitted concentrations, please refer to the IFRA certificate. The fragrance demonstrates very good stability and a pronounced creamy-floral character.

Regulatory compliance: This fragrance oil is manufactured in accordance with European regulations (CLP EC No. 1907/2006 and 1223/2009/CEE) and French IFRA standards.
