

TECHNICAL DATA SHEET

Gourmand Chocolate Fragrance Oil

Product name: Gourmand Chocolate Fragrance Oil

Olfactory classification: Gourmand Chocolate Fragrance Oil belongs to the gourmand chocolate, creamy sweet, and warm vanilla fragrance family, characterized by a pronounced chocolatey, creamy, and warmly sweet profile. The composition combines notes of warm milk, dark chocolate, and vanilla, creating a rich and luxurious fragrance inspired by premium chocolate desserts.

Fragrance oil description: The composition is rich, creamy, and intensely gourmand, with a pronounced effect of melted dark chocolate and sweet vanilla warmth. The fragrance has a medium to strong intensity, very good diffusion, and a long-lasting sweet trail.

The opening of the composition is based on a warm milk note that creates a pleasant, soft, and comforting introduction. This note evokes a creamy chocolate beverage and contributes to the sensation of warmth and indulgent comfort.

In the heart of the fragrance, dark chocolate dominates the composition. Dark chocolate provides rich and deep gourmand fullness with subtle bitter nuances that give the composition a more sophisticated character and pronounced chocolate intensity. The fragrance resembles melted premium chocolate with a full aromatic profile.

The base structure is composed of vanilla. Vanilla softens the intensity of the dark chocolate and gives the composition creamy sweetness, warmth, and a pleasant gourmand finish that extends the longevity of the fragrance.

The dominant accords of this composition include dark chocolate, creamy milk, sweet vanilla, warm gourmand, and dessert accord profiles. The fragrance leaves a rich, warm, and highly indulgent trail, with a pronounced effect of a luxurious chocolate dessert.

Application: Gourmand Chocolate Fragrance Oil is intended for use in scented candles, wax melts, diffusers, and other fragranced formulations. Recommended concentrations for scented candles generally range from 7–10%, while for wax melts

TECHNICAL DATA SHEET

concentrations of 10–15% are recommended, depending on the desired intensity and type of base.

For wax-based formulations, it is recommended to add the fragrance into the liquid wax base according to the wax manufacturer's guidelines in order to achieve optimal dispersion and fragrance stability.

For maximum permitted concentrations, please refer to the IFRA certificate. The fragrance demonstrates very good stability and a pronounced gourmand-chocolate character.

Regulatory compliance: This fragrance oil is manufactured in accordance with European regulations (CLP EC No. 1907/2006 and 1223/2009/CEE) and French IFRA standards.
