

TECHNICAL DATA SHEET

Orange Blossom Fragrance Oil

Product Name: Orange Blossom Fragrance Oil

Olfactory Classification: Orange Blossom Fragrance Oil belongs to the floral citrus, neroli fresh, and soft white floral fragrance family, characterized by a distinctly floral-citrus and elegantly fresh profile. The composition combines notes of orange blossom, lemon, and neroli, creating a sophisticated and airy floral fragrance inspired by Mediterranean citrus gardens.

Description: The composition is delicate, radiant, and elegantly floral, featuring pronounced citrus nuances and a clean floral character. The fragrance exhibits a medium intensity, excellent diffusion, and a long-lasting sophisticated trail. The opening is built around orange blossom. Orange blossom delivers an intense floral freshness with subtle sweet warmth and a Mediterranean character, creating a clean and inviting introduction inspired by the blooming of citrus trees.

The heart of the fragrance unfolds through notes of lemon and neroli. Lemon contributes refreshing citrus clarity and a gentle tangy energy that balances the floral facets of the composition. Neroli enhances the floral character and introduces an elegant, subtly bitter citrus-floral depth that gives the fragrance its sophisticated and distinctive signature.

The base structure continues through notes of neroli, extending the longevity of the composition and leaving a soft, clean, and elegant floral finish with delicate citrus nuances.

The dominant accords of this composition include orange blossom, neroli floral, citrus fresh, white floral, and a soft Mediterranean profile. The fragrance leaves a clean, delicate, and sophisticated trail with a pronounced floral-citrus character.

TECHNICAL DATA SHEET

Application: Orange Blossom Fragrance Oil is intended for the manufacture of scented candles, wax melts, reed diffusers, air fresheners, and other fragranced formulations. The recommended concentration for scented candles generally ranges from 7–10%, while 10–15% is recommended for wax melts, depending on the desired fragrance intensity and the type of base used. For wax-based formulations, it is advisable to incorporate the fragrance into the liquid wax base according to the wax manufacturer's recommendations to ensure optimal dispersion and stability. For maximum permitted concentrations, the relevant IFRA Certificate should be consulted. The fragrance demonstrates excellent stability and a pronounced floral-citrus character.

Orange Blossom Fragrance Oil is manufactured in accordance with European regulations (CLP Regulation (EC) No. 1907/2006 and 1223/2009/EC) and French IFRA standards.
