

TECHNICAL DATA SHEET

Pacific Sunrise Fragrance Oil

Product Name: Pacific Sunrise Fragrance Oil

Olfactory Classification: Pacific Sunrise Fragrance Oil belongs to the fruity floral amber fragrance family, characterized by a pronounced tropical, fruity, and warmly amber profile. The composition combines notes of peach, pineapple, jasmine, vanilla, plum, amber, musk, and cedarwood, creating a soft and radiant fragrance inspired by a tropical sunrise over the Pacific.

Description: The composition is bright, fruity, and elegantly warm, enriched with distinct tropical facets and subtle floral nuances. The fragrance exhibits a medium intensity, excellent diffusion, and a pleasant long-lasting trail. The opening is built around peach and pineapple. Peach imparts a soft, juicy, and velvety sweetness, while pineapple introduces refreshing tropical energy and exotic fruity freshness.

The heart of the fragrance unfolds through notes of jasmine, vanilla, and plum. Jasmine contributes an elegant floral character with a gentle exotic warmth, while vanilla introduces creamy softness and a pleasantly sweet facet. Plum adds a darker fruity depth and a richer character, lending additional complexity to the composition.

The base structure is founded on amber, musk, and cedarwood. Amber provides warm and subtly balsamic richness, musk leaves a soft and clean sensual trail, while cedarwood rounds out the composition with dry woody nuances that enhance the fragrance's longevity.

The dominant accords of this composition include tropical fruity, peach nectar, soft floral amber, creamy vanilla, and a warm woody musk profile. The fragrance leaves a warm, elegant, and pleasantly tropical trail with a subtle amber-woody finish.

TECHNICAL DATA SHEET

Application: Pacific Sunrise Fragrance Oil is intended for the manufacture of scented candles, wax melts, reed diffusers, air fresheners, and other fragranced formulations. The recommended concentration for candle formulations generally ranges from 7–10%, while 10–15% is recommended for wax melts, depending on the desired fragrance intensity and the type of base used. For wax-based formulations, it is advisable to incorporate the fragrance into the liquid wax base according to the wax manufacturer's recommendations to ensure optimal dispersion and stability. For maximum permitted concentrations, the relevant IFRA Certificate should be consulted. The fragrance demonstrates excellent stability and a pronounced fruity-amber character.

Pacific Sunrise Fragrance Oil is manufactured in accordance with European regulations (CLP Regulation (EC) No. 1907/2006 and 1223/2009/EC) and French IFRA standards.
