

TECHNICAL DATA SHEET

Piña Colada Fragrance Oil

Product Name: Piña Colada Fragrance Oil

Olfactory Classification: Piña Colada Fragrance Oil belongs to the Fruity–Gourmand fragrance family, characterized by a pronounced tropical, sweet, and creamy profile. The composition is built around exotic fruity notes supported by a warm, milky-vanilla base that provides richness and lasting performance.

Description: The composition is bright, tropical, and distinctly sensual, exhibiting a medium to strong intensity and good diffusion. The fragrance character is sweet, fruity, and creamy, evoking clear associations with tropical cocktails and a relaxed summer atmosphere. The opening is formed by a combination of orange and brown thyme. Orange delivers refreshing citrus brightness and vibrant energy, while brown thyme introduces an aromatic and subtly spicy nuance, creating contrast and adding complexity to the initial impression.

The heart of the fragrance is dominated by a fruity accord highlighted by pineapple juice and peach. Pineapple provides intense tropical freshness and juicy vibrancy, while peach contributes soft fruity sweetness and smooth roundness. Together, these notes form the rich and recognizable core of the composition, defined by its distinctly exotic character.

The base structure is founded on vanilla and coconut milk. Vanilla imparts warmth and sweetness, while coconut milk introduces a creamy texture and tropical richness. This base ensures longevity and stability, leaving a pleasant and enveloping final impression.

The dominant accords of this composition include fruity tropical, gourmand sweet, creamy milky, and citrus fresh profiles, which together create a rich and commercially appealing fragrance character. The fruity facet is dominant and defines the identity of the composition, while the creamy base contributes to its harmony and lasting quality.

TECHNICAL DATA SHEET

Application: Piña Colada Fragrance Oil is intended for use in fragranced formulations, including scented candles, wax melts, and other perfumery products, where the dosage should be adjusted according to the desired fragrance intensity. Testing is recommended to determine the optimal concentration depending on the type of base and technological system employed. For maximum permitted concentrations, the relevant IFRA Certificate should be consulted. The fragrance demonstrates good stability and uniform diffusion, combined with a pronounced and long-lasting tropical character.

Piña Colada Fragrance Oil is manufactured in accordance with European regulations (CLP Regulation (EC) No. 1907/2006 and 1223/2009/EC) and IFRA standards. It has not been tested on animals.
