

TECHNICAL DATA SHEET

Strawberry Fragrance Oil

Product name: Fragrance Oil "Strawberry".

Olfactory classification: Strawberry Fragrance Oil belongs to the fruity gourmand, berry fruity and sweet dessert fragrance group, with a juicy fruity, sweet and creamy gourmand character. The composition combines notes of blackcurrant, raspberry, strawberry, wild strawberry, vanilla and gourmand accords, creating a rich and appealing fragrance inspired by ripe red fruits and fruity desserts.

Fragrance description: The composition has a pronounced fruity character with dominant strawberry and red berry notes. The fragrance is sweet, juicy and pleasant, with very good diffusion and a long-lasting gourmand trail.

The opening is built around blackcurrant and raspberry. Blackcurrant provides intense fruity depth with subtle tart nuances that refresh the composition, while raspberry adds natural fruity sweetness and extra juiciness.

In the heart of the composition, strawberry and wild strawberry develop. Strawberry dominates the composition with its recognizable sweet and rich fruity character, while wild strawberry contributes more nuanced, natural fruity tones, evoking the aroma of freshly picked berries from nature.

The base structure is built on vanilla and gourmand accords. Vanilla provides warmth, creamy fullness and pleasant sweetness that rounds off the fruity character of the composition. The gourmand accord further enhances the impression of fruity desserts and sweet treats, leaving a long-lasting and pleasant trail.

The dominant accords of this composition include ripe strawberry, wild berries, sweet raspberry, creamy vanilla and a fruity gourmand profile. The fragrance leaves a bright, sweet and intensely fruity impression.

TECHNICAL DATA SHEET

Application: Strawberry Fragrance Oil is intended for use in the production of scented candles, wax melts, diffusers and other fragrance formulations. It is particularly suitable for fruity, berry, candy and gourmand collections due to its rich red fruit character and pleasant vanilla finish. The recommended concentration depends on the type of base and desired fragrance intensity, with mandatory prior testing for compatibility and diffusion. For maximum allowed usage levels, consultation of the IFRA certificate is required.

Origin & Compliance: This fragrance oil is produced in Grasse, France, and manufactured in accordance with European regulations (EC No. 1907/2006 and 1223/2009/EEC) and IFRA standards.
