

TECHNICAL DATA SHEET

Stroll in Tokyo Fragrance Oil

Product name: Fragrance Oil "Tokyo Stroll".

Olfactory classification: Tokyo Stroll Fragrance Oil belongs to the fruity fresh, watery floral and soft amber fragrance group, with a refreshing fruity, aquatic and light floral character. The composition combines notes of blackcurrant, cucumber, orange, cherry leaves, nectarine, musk and dry amber, creating an elegant and modern fragrance inspired by the spring atmosphere of Tokyo.

Fragrance description: The composition has a light, clean and refreshing character with fruity and subtle floral nuances. The fragrance offers pleasant diffusion, good longevity and an elegant contemporary trail.

The opening is built around blackcurrant, cucumber and orange. Blackcurrant provides rich fruity depth with a subtle tart nuance, while cucumber introduces a refreshing watery character and a sense of cleanliness. Orange adds citrus brightness and fresh fruity vibrancy that illuminates the top notes.

In the heart of the composition, cherry leaves and nectarine develop. Cherry leaves bring a delicate green and lightly floral nuance reminiscent of springtime Japanese gardens, while nectarine adds juicy fruity sweetness and softness that enriches the composition.

The base structure is built on musk and dry amber. Musk provides a soft and elegant foundation that rounds off the composition and enhances longevity, while dry amber contributes warm woody-powdery depth and a sophisticated finish.

The dominant accords of this composition include watery freshness, juicy nectarine, blackcurrant, cherry leaf and soft amber. The fragrance leaves a clean, modern and elegantly fruity impression.

TECHNICAL DATA SHEET

Application: Stroll in Tokyo Fragrance Oil is intended for use in the production of scented candles, wax melts, diffusers and other fragrance formulations. It is particularly suitable for fresh, spring-inspired, fruity and clean-home collections due to its refreshing fruity-aquatic character. The recommended concentration depends on the type of base and desired fragrance intensity, with mandatory prior testing for compatibility and diffusion. For maximum allowed usage levels, consultation of the IFRA certificate is required.

Origin & Compliance: This fragrance oil is produced in Grasse, France, and manufactured in accordance with European regulations (EC No. 1907/2006 and 1223/2009/EEC) and IFRA standards.
