

TECHNICAL DATA SHEET

Sweet Butter Fragrance Oil

Product name: Fragrance Oil "Sweet Butter".

Olfactory classification: Sweet Butter Fragrance Oil belongs to the creamy gourmand, bakery gourmand and buttery sweet fragrance group, with a warm creamy, milky-caramel and bakery-inspired character. The composition combines notes of butter, bread, rum, vanilla, milk, sugar and caramel, creating a rich and comforting fragrance inspired by freshly baked treats and creamy desserts.

Fragrance description: The composition has a pronounced gourmand character with warm creamy and slightly caramelized nuances. The fragrance offers medium to strong intensity, very good diffusion and a long-lasting sweet trail.

The opening is built around butter, bread and rum. Butter provides rich creamy fullness and warmth, while bread introduces a bakery accord inspired by freshly baked pastries and the atmosphere of a morning bakery. Rum adds a soft sweet-spicy depth and aromatic complexity that enriches the top notes.

In the heart of the composition, vanilla and milk develop. Vanilla brings warm gourmand richness and smooth creamy softness, while milk enhances the soft and velvety texture of the composition, creating the impression of a warm milky dessert.

The base structure is built on sugar and caramel. Sugar intensifies the sweet gourmand character, while caramel delivers rich melted sweetness with slightly caramelized nuances that leave a long-lasting and comforting trail.

The dominant accords of this composition include creamy butter, bakery bread, warm vanilla, melted caramel and a milky gourmand profile. The fragrance leaves a warm, comforting and intensely gourmand impression.

TECHNICAL DATA SHEET

Application: Sweet Butter Fragrance Oil is intended for use in the production of scented candles, wax melts, diffusers and other fragrance formulations. It is particularly suitable for gourmand, bakery and dessert-inspired collections due to its rich creamy-caramel character. The recommended concentration depends on the type of base and desired fragrance intensity, with mandatory prior testing for compatibility and diffusion. For maximum allowed usage levels, consultation of the IFRA certificate is required.

Origin & Compliance: This fragrance oil is produced in Grasse, France, and manufactured in accordance with European regulations (EC No. 1907/2006 and 1223/2009/EEC) and IFRA standards.
