

TECHNICAL DATA SHEET

Teak Wood Fragrance Oil

Product name: Fragrance Oil "Teakwood".

Olfactory classification: Teakwood Fragrance Oil belongs to the woody oriental, spicy woody and tobacco amber fragrance group, with a warm woody, spicy and resinous oriental character. The composition combines notes of cardamom, saffron accord, woody accords, jasmine, vetiver, tobacco leaf, patchouli and oriental notes, creating a sophisticated and deep fragrance inspired by exotic teakwood.

Fragrance description: The composition has a rich woody-oriental character with warm spicy nuances and a subtle smoky depth. The fragrance offers medium to strong projection, excellent longevity and a refined warm trail.

The opening is built around cardamom and saffron accord. Cardamom brings aromatic spicy freshness with a subtle citrus clarity, while the saffron accord provides luxurious warmth with delicate floral-spicy nuances inspired by saffron.

In the heart of the composition, woody accord, jasmine and vetiver develop. The woody accord evokes the warm and earthy richness of teakwood, creating a robust and elegant central profile. Jasmine adds a soft floral nuance that balances the intensity of the woody notes, while vetiver contributes a dry earthy and slightly smoky depth that enhances the woody character.

The base structure is built on tobacco leaf, patchouli and an oriental accord. Tobacco leaf brings warm aromatic richness with subtle sweet nuances, while patchouli adds a dark earthy depth that gives the composition a sophisticated edge. The oriental accord provides a warm amber-spicy finish and a long-lasting sensual trail.

The dominant accords of this composition include exotic woods, warm spices, tobacco leaf, earthy vetiver and an oriental amber profile. The fragrance leaves a warm, luxurious and elegantly woody impression.

TECHNICAL DATA SHEET

Application: Teak Wood Fragrance Oil is intended for use in the production of scented candles, wax melts, diffusers and other fragrance formulations. It is particularly suitable for woody, oriental, tobacco and masculine-inspired collections due to its rich woody-spicy character. The recommended concentration depends on the type of base and desired fragrance intensity, with mandatory prior testing for compatibility and diffusion. For maximum allowed usage levels, consultation of the IFRA certificate is required.

Origin & Compliance: This fragrance oil is produced in Grasse, France, and manufactured in accordance with European regulations (EC No. 1907/2006 and 1223/2009/EEC) and IFRA standards.
