

TECHNICAL DATA SHEET

Vanilla Cinnamon Fragrance Oil

Product name: Fragrance Oil "Vanilla Cinnamon".

Olfactory classification: Vanilla Cinnamon Fragrance Oil belongs to the spicy gourmand, warm bakery and creamy vanilla fragrance group, with a warm spicy, sweet and creamy gourmand character. The composition combines notes of ginger, nutmeg, butter, cinnamon, caramel, pepper, sugar, biscuit and vanilla, creating a rich and comforting fragrance inspired by freshly baked desserts and spiced confections.

Fragrance description: The composition is intensely gourmand, warm and richly spiced, with pronounced creamy and sweet nuances. The fragrance offers medium to strong intensity, very good diffusion and a long-lasting warm trail.

The opening is built around ginger, nutmeg and butter. Ginger provides aromatic spicy energy with a gentle piquant edge, while nutmeg adds warm woody-spicy depth. Butter contributes creamy gourmand richness that softens the spices and evokes the feeling of warm baked desserts.

In the heart of the composition, cinnamon, caramel and pepper develop. Cinnamon dominates the composition with its warm sweet-spicy character and recognizable aroma reminiscent of cakes and winter treats. Caramel adds rich melted sweetness, while pepper introduces a subtle aromatic sharpness that balances the gourmand profile.

The base structure is built on sugar, biscuit and vanilla. Sugar and biscuit create a warm bakery accord inspired by freshly baked cookies, while vanilla provides creamy fullness and smooth long-lasting sweetness that rounds off the entire composition.

The dominant accords of this composition include warm cinnamon, creamy vanilla, sweet caramel, spicy ginger and a bakery biscuit profile. The fragrance leaves a rich, warm and intensely gourmand trail.

TECHNICAL DATA SHEET

Application: Vanilla Cinnamon Fragrance Oil is intended for use in the production of scented candles, wax melts, diffusers and other fragrance formulations. It is particularly suitable for gourmand collections, winter and festive scents, as well as bakery-inspired ambient compositions due to its rich cinnamon-vanilla character. The recommended concentration depends on the type of base and desired fragrance intensity, with mandatory prior testing for compatibility and diffusion. For maximum allowed usage levels, consultation of the IFRA certificate is required.

Origin & Compliance: This fragrance oil is produced in accordance with European regulations (EC No. 1907/2006 and 1223/2009/EEC) and IFRA standards.
