

TECHNICAL DATA SHEET

Violet Candy Fragrance Oil

Product name: Fragrance Oil "Violet Candy".

Olfactory classification: Violet Candy Fragrance Oil belongs to the powdery floral, sweet gourmand and creamy woody fragrance group, with a pronounced powdery, floral and softly gourmand character. The composition combines notes of bergamot, violet, iris, heliotrope, rosewood, white flowers, white musk, vanilla and sandalwood, creating an elegant and nostalgic fragrance inspired by candied violets and powdery floral sweets.

Fragrance description: The composition is delicate, elegantly powdery and creamy floral, with subtle gourmand and woody nuances. The fragrance offers medium intensity, very good diffusion and a long-lasting sophisticated trail.

The opening is built around bergamot, violet and iris. Bergamot provides light citrus freshness with a subtle bitter nuance that balances the sweet floral tones. Violet introduces a signature powdery and soft floral character inspired by vintage candy accords, while iris enhances the elegant powdery depth and sophistication of the composition.

In the heart of the composition, heliotrope, rosewood and white flowers develop. Heliotrope adds creamy almond-vanilla nuances that enhance the gourmand impression, while rosewood contributes gentle woody elegance and warmth. White flowers bring airy floral brightness and additional softness.

The base structure is built on white musk, vanilla and sandalwood. White musk provides a clean and soft sensual trail, while vanilla adds warm sweetness and creamy fullness. Sandalwood offers a rich woody foundation with a soft balsamic nuance that rounds off the composition and extends its longevity.

The dominant accords of this composition include powdery violet, creamy heliotrope, soft vanilla, elegant iris and creamy sandalwood. The fragrance leaves a gentle, sophisticated and pleasantly powdery-gourmand impression.

TECHNICAL DATA SHEET

Application: Violet Candy Fragrance Oil is intended for use in the production of scented candles, wax melts, diffusers and other fragrance formulations. It is particularly suitable for powdery floral collections, vintage-inspired gourmand scents and elegant ambient compositions due to its characteristic violet-powder accord. The recommended concentration depends on the type of base and desired fragrance intensity, with mandatory prior testing for compatibility and diffusion. For maximum allowed usage levels, consultation of the IFRA certificate is required.

Origin & Compliance: This fragrance oil is produced in accordance with European regulations (EC No. 1907/2006 and 1223/2009/EEC) and IFRA standards.
