

TECHNICAL DATA SHEET

Product Name: 105 Candle Fragrance Oil.

Olfactory classification: 105 Fragrance Oil belongs to the spicy woody, tobacco amber and balsamic musk fragrance groups, with a pronounced spicy, woody and warm amber-tobacco character. The composition combines notes of pink pepper, black pepper, grapefruit, cedarwood, cinnamon, tobacco, amber, a balsamic accord and musk, creating a rich and sophisticated fragrance with a dynamic opening and a deep, warm base.

Fragrance oil description: The opening is built around pink pepper, black pepper and grapefruit. Pink pepper provides subtle fruity piquancy, while black pepper contributes warmer and more pronounced spicy sharpness. Grapefruit introduces citrus freshness and discreet bitterness, creating a vibrant and energetic opening. Cedarwood, cinnamon and tobacco develop in the heart of the fragrance. Cedarwood provides a firm and dry woody structure, while cinnamon contributes warm, sweet-spicy fullness. Tobacco introduces a smoky, subtly sweet and deeply aromatic nuance that gives the composition a distinctive character and additional complexity. The base is built around amber, a balsamic accord and musk. Amber provides warm resinous depth and fullness, while the balsamic accord contributes soft, enveloping and subtly sweet warmth. Musk rounds out the composition with a subtle sensual trail and extends its longevity. The dominant accords include spicy pepper, dry cedar, warm cinnamon, tobacco accord, resinous amber and soft musk. The fragrance leaves a strong, warm and sophisticated woody-spicy impression.

Applications: 105 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for spicy, woody, tobacco, ambery and balsamic collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.

TECHNICAL DATA SHEET

Regulatory compliance: The fragrance oil is manufactured in accordance with the relevant requirements of Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP) and the applicable Standards of the International Fragrance Association (IFRA).

Animal testing: The fragrance oil has not been tested on animals.
