

TECHNICAL DATA SHEET

Product Name: 108 Candle Fragrance Oil.

Olfactory classification: 108 Fragrance Oil belongs to the aromatic woody, spicy floral and mossy amber fragrance groups, with a pronounced citrus, herbal, floral and deeply woody character. The composition combines notes of bergamot, orange, tarragon, jasmine, lily of the valley, lavender, clove, apple, pine needles, sandalwood, cedarwood, patchouli, moss, musk and amber, creating a complex and sophisticated fragrance with a bright aromatic opening, a rich spicy-floral heart and a deep woody-amber base.

Fragrance oil description: The composition is complex, aromatic and distinctly woody, with citrus, herbal and spicy nuances that transition into a rich base of moss, patchouli and warm woody tones. The fragrance has medium-strong to strong intensity, very good diffusion and a long-lasting, sophisticated trail. The opening is built around bergamot, orange and tarragon. Bergamot provides bright citrus freshness with a subtle bitter nuance, while orange contributes fruity sweetness and softness. Tarragon introduces distinctive herbal and subtly anise-like aromatic notes, adding further complexity to the opening. Jasmine, lily of the valley, lavender, clove, apple and pine needles develop in the heart of the fragrance. Jasmine and lily of the valley provide elegant floral fullness and freshness, while lavender contributes a clean herbal-floral character. Clove introduces warm spicy piquancy, apple adds subtle juicy fruitiness, and pine needles contribute resinous, coniferous and green freshness. The base is built around sandalwood, cedarwood, patchouli, moss, musk and amber. Sandalwood and cedarwood provide a rich woody structure, while patchouli contributes earthy and subtly damp depth. Moss accentuates the forest-like and chypre character of the composition, musk provides soft sensuality, and amber introduces warm balsamic fullness and longevity. The dominant accords include citrus aromatic, green herbal, floral spice, pine woods, earthy patchouli, moss, warm amber and soft musk. The fragrance leaves a deep, elegant and distinctly sophisticated woody-aromatic impression.

TECHNICAL DATA SHEET

Applications: 108 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for aromatic, woody, chypre, mossy, spicy and ambery collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.

Regulatory compliance: The fragrance oil is manufactured in accordance with the relevant requirements of Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP) and the applicable Standards of the International Fragrance Association (IFRA).

Animal testing: The fragrance oil has not been tested on animals.
