

TECHNICAL DATA SHEET

Product Name: 114 Candle Fragrance Oil.

Olfactory classification: 114 Fragrance Oil belongs to the fresh aromatic, fruity aquatic and soft woody fragrance groups, with a pronounced citrus, green, aquatic and elegantly woody character. The composition combines notes of bergamot, mandarin, green and fresh accords, mint, aquatic notes, apple, plum, cardamom, pink pepper, cedar, sandalwood, vanilla and cashmere wood, creating a modern and sophisticated fragrance with a refreshing opening, a fruity-aromatic heart and a soft woody base.

Fragrance oil description: The composition is fresh, clean and dynamic, with pronounced citrus and aquatic nuances that gradually transition into a warmer, creamy-woody finish. The fragrance has medium-strong to strong intensity, very good diffusion and a long-lasting, sophisticated trail. The opening is built around bergamot, mandarin, a green accord and a fresh accord. Bergamot and mandarin provide vibrant citrus freshness and juicy fruity fullness, while the green accord introduces the character of young leaves and natural freshness. The fresh accord contributes a clean, airy and crystalline nuance. Mint, aquatic accords, apple, plum, cardamom and pink pepper develop in the heart of the fragrance. Mint and aquatic accords provide cool, modern freshness, while apple contributes crisp, juicy fruitiness. Plum introduces a softer, darker fruity fullness, cardamom adds warm aromatic-spicy depth, and pink pepper provides subtle fruity-spicy piquancy. The base is built around cedar, sandalwood, vanilla and cashmere wood. Cedar provides a dry and elegant woody structure, while sandalwood contributes creamy softness and warmth. Vanilla introduces subtle gourmand roundness, while cashmere wood completes the composition with a soft, silky and sophisticated woody character. The dominant accords include sparkling citrus, green freshness, aquatic mint, crisp apple, warm cardamom, pink pepper, creamy sandalwood and cashmere wood. The fragrance leaves a clean, modern and elegantly woody-aromatic impression.

Applications: 114 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for fresh, aquatic, fruity-aromatic and soft woody collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.
