

TECHNICAL DATA SHEET

Product Name: 116 Candle Fragrance Oil.

Olfactory classification: 116 Fragrance Oil belongs to the fruity floral, floral gourmand and soft woody fragrance groups, with a pronounced fruity, floral and warm gourmand character. The composition combines notes of blackcurrant buds, bergamot, lychee, rose, patchouli, water lily, musk, vanilla and praline, creating a sophisticated fragrance with a juicy fruity opening, an elegant floral-woody heart and a warm, sweet base.

Fragrance oil description: The composition is rich, elegant and fruity-floral, with watery floral nuances and a warm, creamy-gourmand finish. The fragrance has medium-strong to strong intensity, very good diffusion and a long-lasting, sophisticated trail. The opening is built around blackcurrant buds, bergamot and lychee. Blackcurrant buds provide a characteristic green, fruity and subtly tart nuance, while bergamot contributes bright citrus freshness. Lychee introduces juicy, exotic and subtly sweet fruitiness, creating a vivid and refreshing opening. Rose, patchouli and water lily develop in the heart of the fragrance. Rose provides rich and elegant floral fullness, while patchouli introduces earthy and woody depth. Water lily contributes a delicate, watery and airy floral character, giving the heart of the composition additional freshness and lightness. The base is built around musk, vanilla and praline. Musk provides a soft and clean foundation, while vanilla contributes warm, creamy and enveloping sweetness. Praline introduces a rich gourmand nuance with nutty and caramelised tones, rounding out the composition with a warm and seductively sweet finish. The dominant accords include blackcurrant buds, juicy lychee, bergamot, rose, aquatic florals, patchouli, creamy vanilla, praline and soft musk. The fragrance leaves a rich, elegant and sophisticated fruity-gourmand impression.

Applications: 116 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for fruity floral, floral gourmand, vanilla, praline and soft woody collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.

TECHNICAL DATA SHEET

Regulatory compliance: The fragrance oil is manufactured in accordance with the relevant requirements of Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP) and the applicable Standards of the International Fragrance Association (IFRA).

Animal testing: The fragrance oil has not been tested on animals.
