

TECHNICAL DATA SHEET

Product Name: 204 Candle Fragrance Oil.

Olfactory classification: 204 Fragrance Oil belongs to the fruity floral, soft woody and creamy musk fragrance groups, with a pronounced fruity, floral and warm woody character. The composition combines notes of blackcurrant, apple, mandarin, rose, plum, jasmine, orchid, musk, cedar and sandalwood, creating an elegant fragrance with a vibrant fruity opening, an opulent floral heart and a soft woody-musky base.

Fragrance oil description: The composition is elegant, juicy and distinctly floral, with pleasant fruity nuances and a warm, creamy-woody finish. The fragrance has medium-strong to strong intensity, very good diffusion and a long-lasting, sophisticated trail. The opening is built around blackcurrant, apple and mandarin. Blackcurrant provides juicy, subtly tart fruity fullness, while apple contributes crisp and fresh sweetness. Mandarin introduces bright citrus vibrancy and further refreshes the opening. Rose, plum, jasmine and orchid develop in the heart of the fragrance. Rose and jasmine provide classic and elegant floral fullness, while plum introduces rich, soft and subtly sweet fruity depth. Orchid contributes an exotic and opulent floral character, further enriching the heart of the composition. The base is built around musk, cedar and sandalwood. Musk provides a soft, velvety and sensual trail, while cedar contributes a dry and stable woody structure. Sandalwood rounds out the composition with creamy warmth and pleasant softness. The dominant accords include blackcurrant, crisp apple, mandarin, rose, plum, jasmine, orchid, soft musk, cedar and creamy sandalwood. The fragrance leaves an elegant, warm and sophisticated fruity-floral impression.

Applications: 204 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for fruity floral, floral, soft woody and musk collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.

TECHNICAL DATA SHEET

Regulatory compliance: The fragrance oil is manufactured in accordance with the relevant requirements of Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP) and the applicable Standards of the International Fragrance Association (IFRA).

Animal testing: The fragrance oil has not been tested on animals.
