

TECHNICAL DATA SHEET

Product Name: 213 Candle Fragrance Oil.

Olfactory classification: 213 Fragrance Oil belongs to the fruity chypre, floral and musk fragrance groups, with a pronounced fruity, floral and warm musky character. The composition combines notes of blackcurrant, white flowers, rose, jasmine, plum, peach, musk, vanilla and patchouli, creating an elegant fragrance with a juicy fruity opening, an opulent floral heart and a warm, sensual base.

Fragrance oil description: The composition is rich, fruity-floral and sophisticated, with medium to high intensity, excellent diffusion and a long-lasting fragrance trail. The opening presents a combination of blackcurrant and white flowers. Blackcurrant provides intense fruity freshness with subtle tart nuances, while white flowers introduce a clean, luminous and elegant floral character. Together, they create a vibrant and appealing introduction. The heart of the composition comprises rose, jasmine, plum and peach. Rose brings rich, velvety floral elegance, jasmine contributes intoxicating floral depth, while plum and peach enrich the composition with ripe fruity nuances that create a soft, juicy and sensual character. The base notes comprise musk, vanilla and patchouli. Musk provides a clean, soft and long-lasting trail, vanilla introduces warm, creamy sweetness, while patchouli adds earthy depth and subtle sophistication, rounding out the composition with an elegant chypre character. The dominant accords include juicy blackcurrant, floral bouquet, ripe stone fruits, creamy vanilla, soft musk and elegant patchouli. The fragrance leaves a warm, feminine and luxurious impression with a pronounced fruity-floral harmony.

Applications: 213 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for fruity, floral, chypre and elegant collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.

TECHNICAL DATA SHEET

Regulatory compliance: The fragrance oil is manufactured in accordance with the relevant requirements of Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP) and the applicable Standards of the International Fragrance Association (IFRA).

Animal testing: The fragrance oil has not been tested on animals.
