

TECHNICAL DATA SHEET

Product Name: 218 Candle Fragrance Oil.

Olfactory classification: 218 Fragrance Oil belongs to the white floral, powdery amber and woody musk fragrance groups, with a pronounced floral, powdery and warm oriental character. The composition combines notes of white jasmine, rose, iris, woody accords, orange blossom, vanilla, white musk, amber and patchouli, creating a rich and sophisticated fragrance with an elegant floral structure and a warm base.

Fragrance oil description: The composition is opulent, elegant and distinctly floral, with powdery, woody and ambery nuances. The fragrance has medium to high intensity, very good diffusion and a long-lasting, sophisticated trail. The opening is built around white jasmine and rose. White jasmine provides rich, intense and opulent floral fullness, while rose contributes soft, velvety elegance. Their combination creates a luminous and luxurious floral introduction. Iris, a woody accord and orange blossom unfold in the heart. Iris introduces powdery sophistication and subtly earthy nuances, while the woody accord provides warmth and stability to the composition. Orange blossom contributes luminous citrus-floral freshness and gentle sweetness, enriching the heart with additional elegance. The base is built around vanilla, white musk, amber and patchouli. Vanilla provides warm creamy sweetness, while white musk contributes a clean, soft and sensual trail. Amber introduces rich balsamic warmth and depth, while patchouli rounds out the composition with earthy and subtly spicy nuances. The dominant accords include white floral, powdery iris, warm amber, creamy vanilla and earthy patchouli. The fragrance leaves a rich, warm and elegantly oriental impression.

Applications: 218 Fragrance Oil is intended for the manufacture of scented candles, wax melts, diffusers, air fresheners and other fragranced formulations. It is particularly suitable for luxurious floral, powdery, ambery and oriental collections. The recommended concentration depends on the type of base and the desired fragrance intensity, subject to prior compatibility, stability and diffusion testing. The relevant IFRA Certificate should be consulted to determine the maximum permitted concentrations.

TECHNICAL DATA SHEET

Regulatory compliance: The fragrance oil is manufactured in accordance with the relevant requirements of Regulation (EC) No 1907/2006 (REACH), Regulation (EC) No 1272/2008 (CLP) and the applicable Standards of the International Fragrance Association (IFRA).

Animal testing: The fragrance oil has not been tested on animals.
